

Agent Access - Broker Bulletins

You know what would be great?...A way to post bulletins where every one of my agents could see it. Even if they don't come into the office.

You are in luck. Every time you send an email to all of your agents you have the option of turning the email into a "Broker Bulletin". Broker Bulletins display at the top of the Front Page in Agent Access. They cannot be missed, or ignored, and new bulletins are marked as new. Now you can make sure your agents see important messages from you.
